**Local Health Improvement Coalition (LHIC)**

**Access to Health Leadership Team**

**Meeting Schedule 2019**

Leading the way in collaboration, the Health Department's LHIC and The Partnership's Access to Health Leadership Team are aligned to meet the needs of our community.

The Carroll County Health Department's mission is to promote community health and wellness by educating and protecting the public through collaboration with community partners. With the support of the Maryland Department of Health, Carroll County established a Local Health Improvement Coalition (LHIC) to review state and local health data, identify and discuss local public health issues and priorities, and create action plans to address these issues. As a founding member of The Partnership for a Healthier Carroll County, the Health Department relies on them to coordinate many of these action plans through their Leadership Teams.

The Partnership for a Healthier Carroll County is the coordinating hub for health priorities in Carroll County. The Partnership serves as the backbone organization coordinating the work of the collective to energize change and build a cohesive movement through Leadership Teams. Additionally, The Partnership's responsibilities include a Shared Measurement System utilizing result-based accountability, sharing measures between and among partners.

Co-Chairs: Ed Singer, Carroll County Health Officer, and Dorothy Fox, Executive Director & CEO, The Partnership for a Healthier Carroll County, Inc.
